

bluesky Managed Outlook gives you the ability to access your emails from almost every internet enabled PC or handheld device - including the Apple iPhone.

Built on the Microsoft hosted Exchange platform, **bluesky Outlook** gives you the email functionality normally reserved for large, corporate budgets at a fraction of the price. With email, contacts, calendars and tasks all stored on our secure servers, you can be confident that your connection is reliable, simple and most importantly secure. As all emails pass through the **bluesky Mailsafe** portal, you can take further comfort in the knowledge that you will no longer be receiving any spam or viruses.

The **bluesky Outlook PLUS** solution includes an “*ever-green*” license for both Microsoft Outlook and Exchange clients, meaning that you will always have the most up-to-date and powerful software at your disposal. **bluesky** will provide you with software updates as soon as they are made available.

Benefits of the bluesky Outlook program

Increase Power

Benefit from the power of **bluesky** collective hosting, and receive enterprise mail security and reliability without the high price tag.

Increase Mobility

With access available everywhere an internet connection exists, increase the mobility of your workforce by synchronising email, contacts, calendars and tasks across the various locations and devices of your business.

Increase Productivity

Removing the hassle of licensing and maintaining IT technology from your workforce allows them to focus on what really matters - your trade.

Increase Security

Access to your email is through a secure, SSL encrypted connection to our mail system; comparable to the security technology utilised by online banking.

Improve Synergy

Increased visibility across your company's Outlook calendars, combined with centralized access to folders and contacts, enables a cooperative, time-saving team approach.

Reduce Risk

Your data is stored on our secure servers where it is safe from theft or accidental loss.
